

Longmeadow Fall 2008 Leaf Program Announced

The Town of Longmeadow will be providing a curbside-bagged leaf collection program again this fall. Longmeadow residents will have three options for leaf disposal: 1) use the Town Pay as You Throw (PAYT) leaf collection program; 2) hire a private contractor for leaf removal; or 3) purchase a Recycling Center sticker and transport leaves directly to the meadows on West Road.

Town of Longmeadow leaf bags will be available for purchase beginning Monday, October 6th at four locations: Brightwood Hardware, Council on Aging at 231 Maple Road, DPW offices on Pondsideroad during their regular hours of operation, and at the Recycling Center on Saturdays only. Cost of the bags is \$5 for 10 bags. The leaf drop-off site on West Road will open on October 27th and curbside collection of the special town leaf bags will begin on November 10th (depending on the weather). An annual Recycling Sticker is required for residents in order to use the West Road leaf drop-off site.

More information about the program will follow. Also be sure to check the town's website, our local cable television station and the media for more information about this program in the coming weeks. Call 567-3400 with specific questions.
