

## **Tree Pruning**

The Longmeadow Department of Public Works has been notified that Asplundh Tree Expert Co. will be performing utility line clearing work beginning the week of January 11 on behalf of the Western Mass Electric Company. It is expected that this work will continue for 2 plus months and that this work will be performed on most streets in town. The work to be done is cyclical maintenance work performed to help WMECO maintain reliable electric service to Longmeadow customers. The work to be done entails clearing above, beneath and to the side of wires to ensure that wires are sufficiently clear to maintain reliable electric service for approximately five years. The trees to be trimmed are typically owned by the Town and on the tree belt.

Any individuals with questions or looking for more information may call the DPW at 567-3400.
