### Parmesan Toast

Our delicious Italian dinner is about to be placed on our table for my famished family to enjoy. After a busy day everyone is absolutely starved! However, as I reach for the package of rolls, I discover that the item was not remembered when I went grocery shopping. But wait... there is always the infamous "Plan B".

I do have a loaf of oatmeal bread, margarine and Parmesan cheese. (There is always a loaf of bread in our freezer!)

After my family tastes **Parmesan Toast** who will remember that rolls are customarily served???

### Ingredients

1 loaf of bread (oatmeal is tasty)  
Margarine or butter  
Parmesan cheese

### Method

Place a thin coat of margarine on a slice of bread. Top with a thin coating of Parmesan Cheese. **Toast in toaster oven** until edges are slightly golden. Bread needs to lie **flat**. Slice on a diagonal and serve.
